

CAPABILITY STATEMENT

DIRECT CONTRACTS | COMMERCIAL WORKS | SUBCONTRACT PACKAGES

Bendigo based · Central Victoria · Victoria wide for larger works

LOCAL LAND CLEARING & VEGETATION CONTRACTOR

Ironbark Vegetation Management is a Bendigo-based contractor delivering land clearing, forestry mulching, slashing, fire-prevention and rural site works. We work directly with property owners, builders, contractors and councils, with written scopes, reliable scheduling and plant matched to the job.

BEFORE

AFTER

Real project photos · vegetation clearing and property reclamation, Central Victoria

CORE SERVICES

- Forestry Mulching
- Slashing
- Asset Protection Zones & Fire Season Prep
- Blackberry & Scrub Clearing
- General Earthworks & Excavation
- Vineyard & Solar Farm Vegetation Management
- Storm, Fire & Flood Damage Cleanup
- Driveway Renovations & Track Grading

WHY IRONBARK

- Local Bendigo operator and direct point of contact
- Written quotes and clearly defined work scopes
- Plant selected to suit terrain and vegetation
- SWMS and site-specific risk management
- Scope-based, schedule-of-rates and subcontract arrangements
- Clean, documented handover

CAPABILITY & COMPLIANCE

Ready for council, commercial and contractor engagement

\$20M public & products liability · SWMS and risk documentation

PLANT & EQUIPMENT

Ironbark uses flexible plant access, including hired-in machinery, so equipment is matched to the scope rather than forcing every job through one machine.

- Compact track loaders / skid steer loaders
- Forestry mulchers and high-flow mulching attachments
- Slashers and brush cutters
- Excavators for clearing, drainage and light excavation
- Buckets, augers, trenching and grading attachments
- Competent operator tickets for skid steer loaders and excavators
- Plant transport and mobilisation arranged to suit the project

ENGAGEMENT OPTIONS

- Scope-based quotation
- Schedule-of-rates / hourly machine work
- Subcontract and overflow support
- One-off works or recurring maintenance
- Council and contractor work orders

HOW WE WORK

01 SITE VISIT & SCOPE

We attend site, walk the works with you and confirm access, terrain and constraints in writing.

02 WRITTEN QUOTE & SWMS

You get a defined scope, quotation and job-specific SWMS and risk documentation before mobilisation.

03 DELIVERY & HANDOVER

Plant matched to the job, progress kept on schedule, and a clean documented finish with photos.

TYPICAL COUNCIL WORK PACKAGES

- Fire-prevention vegetation and hazard reduction
- Roadside, reserve and open-space vegetation works
- Slashing and broad-acre maintenance
- Access and fire track clearing and grading
- Storm, fire and flood cleanup

PROJECT DOCUMENTATION

- Insurance certificates of currency
- SWMS and site-specific risk documentation
- Written scopes, variations and work dockets
- Before / after and completion photos as required
- Subcontractor insurance records where applicable

INSURANCE

\$20M Public & Products Liability

Current to 29 July 2027

Comprehensive Motor Insurance - Business Use

Current to 10 August 2027

Certificates of currency available on request.

SAFETY & COMPLIANCE

- Safe Work Method Statements (SWMS)
- Site-specific risk assessment and work planning
- Competent operator tickets held for skid steers and excavators
- Pre-start checks and plant suitability review
- Written scope and variation control
- Underground service checks where excavation applies
- Works quoted and carried out to your specification, we do not provide advice or assessments
